

LIGHT AND MERCY

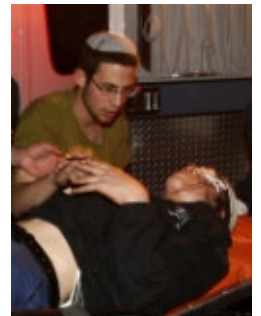

My Dear Friends,

Dr. Chezi Levi and I were deeply honored to meet and speak with so many wonderful people the United States. This was the first time I was in the States, and I never expected such abundant love and generosity toward us and the work we are doing here in Israel. It really opened my eyes to how well you know the situation here, how greatly you care about the Israeli people, and how close and connected you are to this Land.

Please be assured that your working with us will help accomplish the goal of aiding all in Israel that we have the privilege to help; especially the needy, wounded soldiers and terrorist victims.

This past week we were able to donate a basket of food to one of the young yeshiva massacre victims who still remains hospitalized in Jerusalem.

Also, *Light and Mercy*, along with other “amutah’s,” was able to help comfort and provide food to the Ortiz family. Their 15 year old son, Ami, was severely wounded by a bomb hidden in an innocent looking Passover basket. Ami is making miraculous strides in his recovery. However, he has a long way to go, and is in devastating pain much of the time. I live in the same settlement as the Ortiz’s, and have been friends with this amazing family for years. My heart is pained over this tragedy and I pray for a “refuah shelama,” (a full recovery) for Ami; and also for justice to be carried out for the Ortiz family.

Now, *Light and Mercy* is facing two crucial challenges. With Passover coming soon, we need finances to help provide needy families, wounded soldiers and terror victims with the extras needed to celebrate the Passover Seder. Can you help us immediately fulfill this “mitzvah?” The most direct way to help would be to go to our website, www.lightandmercy.com, and click on donations. There is a way to donate there that will deposit your contribution directly to our bank. As always, we are deeply grateful that G-d has raised you up as our provision to those in need in Israel.

Also, we need to rent a new office. Our lease on the office we now have is over, and we have located a less expensive office to rent. However, we are in genuine need of some to help us with our office expenses which amount to approximately \$1200 a month. Please pray about being part of *Light and Mercy* in this way. We would be most grateful.

I have always been impressed to keep in my mind and heart the profound truth that G-d is big, He can do everything. Is it possible for you to be part of His plan in helping to provide these needs for *Light and Mercy*?

I cannot thank you enough for being with me in this Holy work. G-d will bless our efforts, I am sure.

Shalom and G-d bless you,

Miki Solomon
